

**Below is the solution for error "The Windows Cryptographic Service Provider reported an error:" in Adobe Acrobat Reader while signing MCA Documents.**

**This error may face in Adobe Acrobat Reader Version 9.0 and above, this is error of Adobe Acrobat and not of USB Token.**

**Follow below steps:**

- **Uninstall the current installation of Adobe Acrobat Reader from your computer, any version.**
- **Install the Adobe Acrobat Reader from the setup you have recently downloaded.**
- **Once you finish installation, open the Adobe Acrobat Reader, accept the License Agreement.**
- **You will receive a message "Security Update Available" click on YES.**
- **This will install Adobe Acrobat Security Update in your Acrobat Reader and you will not face the above error.**
- **Now you can update your computer to higher version of Adobe Acrobat Reader from Help Menu > Check Update.**
